Hi John,

Should let you know that Sharon's no longer with CDM Smith. I think that all correspondence you would send to her should now be sent to Frank.

Moreover, when you forward the survey results to CDM/EPA, please be sure to send them straight to Jason ([jmagalen@seaengineering.com](mailto:jmagalen@seaengineering.com)), Frank, and Scott Kirchner ([kirchnersf@cdmsmith.com](mailto:kirchnersf@cdmsmith.com)).

I'll forward this chain along to Frank.

Ben

Sharon:

Please find the attached e-mail that I sent earlier to Mike Hoppe. I did end speak to Mike and he suggested that I should reach out to you so you are aware of possible surveys sent today which may need approval later today and/or over the weekend.

Please feel free to call me on my cell phone if you have any questions or would like to discuss this further.

Mike:

I was speaking to Gary Foster a few moments ago about the armor stone surveys. I believe that we may submit the north and south surveys today to CDM for review and approval. I was wondering if you will be monitoring your e-mail this weekend to approve the armor stone and approval to start test area for habitat layer. My assumption is that GLDD may be ready to start the habitat test area on Saturday.

Additionally, I tried to reach you on your cell and recieved a message that number was not in service possibly it is turned off. Please confirm that I was using the correct number 908-420-4472

Feel free to call me to discuss this further.
